Acid, acetylsalicylic, and heat regulation in fever cases; Henry G. Barbour 624

Acid, acetylsalicylic, and heat regulation in normal individuals; Henry G. Barbour and Michael M. Devenis 617

Acidosis, control of, in treatment of diabetes; Edgar Stillman 445

Allen, Frederick M.: Three cases of "renal glycosuria" 523

Amebiasis, criterions for distinguishing endamoeba of, from other organisms; Charles A. Kofoid, Sidney I. Kornhauser and Olive Swezy 35

Antipyretics. I. The Benedict respiration chamber at the New Haven Hospital; Henry G. Barbour 611

Antipyretics. II. Acetylsalicylic acid and heat regulation in normal individuals; Henry G. Barbour and Michael M. Devenis 617

Antipyretics. III. Acetylsalicylic acid and heat regulation in fever cases; Henry G. Barbour 624

Asthenia, neurocirculatory: See Heart, irritable

Asuzano, M. A.: Two cases of endamebic dysentery at Baguio hospital treated with benzyl benzoate 396

Aub, J. C.: Basal metabolism in exophthalmic goiter 645

Aub, J. C.: Basal metabolism in hypothyroidism 404

Auscultatory phenomena of heart in normal men and in soldiers with irritable heart; John T. King, Jr 89

Balcar, J. O.: Fever and water reserve of body 116

Barach, Joseph H.: Energy index (S. D. R. index) of circulatory system 509

Barbour, Henry G.: Antipyretics. I. Benedict respiration chamber at New Haven Hospital 611

Barbour, Henry G.: Antipyretics. II. Acetylsalicylic acid and heat regulation in normal individuals 617

Barbour, Henry G.: Antipyretics. III. Acetylsalicylic acid and heat regulation in fever cases 624

Barron, Moses: Necropsy studies at a hospital center 302

Baumann, L.: Uric acid content of blood compared with renal dietary test 70

Beaven, Paul Webley: Clinical evidence of involvement of suprarenal glands in influenza and influenzal pneumonia 78

Benedict respiration chamber at the New Haven Hospital; Henry G. Barbour 611

Benzyl benzoate in treatment of endamebic dysentery at Baguio hospital; M. A. Asuzano 396

Benzyl benzoate, protozoologic and clinical studies on treatment of protozoal dysentery with; Frank G. Haughwout and Pedro T. Lantin ... 383

PAGE

Berghoff, Robert S.: The more common gases; their effect on respiratory tract 678

Berman, Louis: Determination of hemoglobin by the acid hematin method 553

Blood, cholesterol content of, in various hepatic conditions; M. A. Rothschild and J. Felsen..... 520

Blood, uric acid content of, compared with renal dietary test; bland diet compared with ordinary test diet; L. Baumann, G. H. Hansmann, A. C. Davis and F. A. Stevens..... 70

Boas, Ernst P.: Relation of neurocirculatory asthenia to hyperthyroidism as determined by effects of injection of epinephrin..... 419

Boettiger, Carl: Pneumonia and some of its complications at Camp Bowie 1

Botulism. Study of the resistance of spores of bacillus botulinus to various sterilizing agencies employed in canning fruits and vegetables; Ernest C. Dickson, Georgina S. Burke and Engelena S. Ward..... 581

Bridgman, E. W.: Duration of normal convalescence..... 65

Brown, N. Worth: Sino-atrial heart block in child, with observations on effects of atropin and vagus stimulation..... 458
(Correction) 580

Burke, Georgina S.: Botulism. Study of the resistance of spores of bacillus botulinus to various sterilizing agencies employed in canning fruits and vegetables 581

Canning, study of resistance of spores of bacillus botulinus to various sterilizing agencies employed in canning fruits and vegetables; Ernest C. Dickson, Georgina S. Burke and Engelena S. Ward..... 581

Carter, Edward Perkins: The electrocardiogram and ventricular preponderance 638

Charlton, Alice G.: Experimental endothelial leukocytosis in guinea-pigs, fifth report of studies on mononuclear leukocytes of blood..... 295

Cholesterol content of blood in various hepatic conditions; M. A. Rothschild and J. Felsen..... 520

Clough, Harry D.: Studies on epinephrin. III. Effect of epinephrin on electrocardiograms of patients with "irritable heart"..... 284

Colwell, Howard S.: Pneumonia and some of its complications at Camp Bowie 1

Contagious diseases, immunity of city-bred recruits; A. G. Love and Charles B. Davenport..... 129

Convalescence, normal, duration of; E. W. Bridgman..... 65

Cowie, David Murray: Clinical evidence of involvement of suprarenal glands in influenza and influenzal pneumonia..... 78

Davenport, Charles B.: Immunity of city-bred recruits..... 129

Davis, A. C.: Uric acid content of blood compared with renal dietary test 70

Devenis, Michael M.: Antipyretics. II. Acetylsalicylic acid and heat regulation in normal individuals..... 617

Diabetes, control of acidosis in treatment of; Edgar Stillman..... 445

Dickson, Ernest C.: Botulism. Study of the resistance of spores of bacillus botulinus to various sterilizing agencies employed in canning fruits and vegetables 581

Dysentery, endamebic, at Baguio hospital treated with benzyl benzoate; M. A. Asuzano 396

Dysentery, protozoologic and clinical studies on treatment of protozoal dysentery with benzyl benzoate; Frank G. Haughwout and Pedro T. Lantin 383

Effort Syndrome: See Heart, Irritable.

Electrocardiogram and ventricular preponderance; Edward Perkins Carter and Carl H. Greene..... 638

Electrocardiogram, significance of abnormalities in form of; G. Canby Robinson 422

Electrocardiograms, effect of epinephrin on, of patients with "irritable heart;" Harry D. Clough..... 284

Emphysema, experimental; Sarah R. Kelman..... 332

Endamoeba, criterions for distinguishing endamoeba of amebiasis from other organisms; Charles A. Kofoid, Sidney I. Kornhauser and Olive Swezy 35

Energy index (S. D. R. index) of circulatory system; Joseph H. Barach.. 509

Epinephrin, relation of neurocirculatory asthenia to hyperthyroidism as determined by injection of epinephrin; Ernst P. Boas..... 419

Epinephrin, studies on. I. Effects of injection of epinephrin in soldiers with "irritable heart;" Joseph T. Wearn and Cyrus C. Sturgis..... 247

Epinephrin, studies on. II. Effects of epinephrin on basal metabolism in soldiers with "irritable heart," in hyperthyroidism and in normal men; Edna H. Tompkins, Cyrus C. Sturgis and Joseph T. Wearn..... 269

Epinephrin, studies on. III. Effect of epinephrin on electrocardiograms of patients with "irritable heart;" Harry D. Clough..... 284

Felsen, J.: Cholesterol content of blood in various hepatic conditions.... 520

Fever and water reserve of body; J. O. Balcar, W. D. Sansum and R. T. Woodyatt 116

Foster, Nellis B.: Increase of extract nitrogen in tissues, with chronic nephritis 242

Gases, more common; their effect on the respiratory tract; Robert S. Berghoff 678

Glycosuria, renal, three cases of; Frederick M. Allen, Mary B. Wishart and L. Millard Smith..... 523

Goiter, exophthalmic, and basal metabolism; J. H. Means and J. C. Aub.. 645

Gordon, Alfred: Mental disorders following influenza..... 633

Gout, roentgenographic studies in gout; C. W. McClure and E. D. McCarty 563

Greene, Carl H.: The electrocardiogram and ventricular preponderance.. 638

Greenway, James C.: Pneumonia and some of its complications at Camp Bowie 1

PAGE

Haden, Russell L.: Meningococcus meningitis at Camp Lee 514

Hall, Milton W.: Study of pneumococcus carriers 600

Hansmann, G. H.: Uric acid content of blood compared with renal dietary test 70

Haughwout, Frank G.: Protozoologic and clinical studies on treatment of protozoal dysentery with benzyl benzoate 383

Heart, auscultatory phenomena of, in normal men and in soldiers with irritable heart; John T. King, Jr. 89

Heart block, sino-atrial in child, with observations on effects of atropin and vagus stimulation; N. Worth Brown 458

(Correction) 580

Heart, irritable, effect of epinephrin on electrocardiograms of patients with; Harry D. Clough 284

Heart, irritable, effects of injection of epinephrin in soldiers with; Joseph T. Wearn and Cyrus C. Sturgis 247

Heart, irritable, effects of epinephrin on basal metabolism in soldiers with "irritable heart," in hyperthyroidism and in normal men; Edna H. Tompkins, Cyrus C. Sturgis and Joseph T. Wearn 269

Heart, irritable, in general practice; comparison between it and irritable heart of soldiers; S. Neuhof 51

Heart, irritable, possibilities of physical development in cases of effort syndrome by means of graded exercises; Bertnard Smith 321

Heart, irritable, relation of neurocirculatory asthenia to hyperthyroidism as determined by effects of injection of epinephrin; Ernst P. Boas 419

Heart, irritable, study of incidence of pulmonary tuberculosis in soldiers with; John T. King, Jr. 238

Heart, prolongation of the "S-T" interval of the ventricular complex as shown by the electrocardiograph; Jonathan Meakins 489

Heart sounds, factors determining relative intensity of, in different auscultation areas; Carl J. Wiggers 471

Hemoglobin, determination of, by the acid hematin method; Louis Berman 533

Higley, Henry Allen: Study of renal concentration power for uric acid in early chronic interstitial nephritis 557

Howard, C. P.: Progressive lenticular degeneration associated with cirrhosis of liver (Wilson's disease) 497

Hyperthyroidism, effects of epinephrin on basal metabolism in soldiers with "irritable heart," in hyperthyroidism and in normal men; Edna H. Tompkins, Cyrus C. Sturgis and Joseph T. Wearn 269

Hyperthyroidism, relation of neurocirculatory asthenia to, as determined by effects of injection of epinephrin; Ernst P. Boas 419

Hyperthyroidism, use of laboratory methods in diagnosis of; Charles W. Lueders 432

Hypothyroidism, basal metabolism in; J. H. Means and J. C. Aub 404

Immunity of city-bred recruits; A. G. Love and Charles B. Davenport 129

PAGE

Influenza and neurosyphilis; Karl A. Menninger..... 98

Influenza, clinical evidence of involvement of suprarenal glands in influenzal pneumonia and; David Murray Cowie and Paul Webley Beaven..... 78

Influenza epidemic of autumn, 1918, pathologic anatomy and bacteriology of; Baldwin Lucke, Toynbee Wight and Edwin Kime..... 154

Influenza, mental disorders following; Alfred Gordon..... 633

Kelman, Sarah R.: Experimental emphysema..... 332

Kerr, William J.: Preliminary survey of thyroid gland among 2,182 recruits at Camp Lewis, Washington..... 347

Kime, Edwin: Pathologic anatomy and bacteriology of influenza..... 154

King, John T., Jr.: Auscultatory phenomena of heart in normal men and in soldiers with irritable heart..... 89

King, John T., Jr.: Study of incidence of pulmonary tuberculosis in soldiers with irritable heart..... 238

Kofoid, Charles A.: Criterions for distinguishing endamoeba of amebiasis from other organisms..... 35

Kornhauser, Sidney I.: Criterions for distinguishing endamoeba of amebiasis from other organisms..... 35

Lantin, Pedro T.: Protozoologic and clinical studies on treatment of protozoal dysentery with benzyl benzoate..... 383

Lenticular degeneration, progressive, associated with cirrhosis of liver; C. P. Howard and C. E. Royce..... 497

Leukocytosis, experimental endothelial, in guinea-pigs; fifth report of studies on mononuclear leukocytes of blood; Frank A. McJunkin and Alice G. Charlton..... 295

Liver, cholesterol content of blood in various hepatic conditions; M. A. Rothschild and J. Felsen..... 520

Liver, cirrhosis of, with progressive lenticular degeneration (Wilson's disease); C. P. Howard and C. E. Royce..... 497

Love, A. G.: Immunity of city-bred recruits..... 129

Lucke, Baldwin: Pathologic anatomy and bacteriology of influenza..... 154

Lueders, Charles W.: Use of laboratory methods in diagnosis of early hyperthyroidism..... 432

McCarty, E. D.: Roentgenographic studies in gout..... 563

McClure, C. W.: Roentgenographic studies in gout..... 563

McCoy, Charles: Study of pneumococcus carriers..... 600

McJunkin, Frank A.: Experimental endothelial leukocytosis in guinea-pigs; fifth report of studies on mononuclear leukocytes of blood..... 295

Meakins, Jonathan: Prolongation of the "S-T" interval of the ventricular complex as shown by electrocardiograph..... 489

Means, J. H.: Basal metabolism in exophthalmic goiter..... 645

Means, J. H.: Basal metabolism in hypothyroidism..... 404

Meningitis, meningococcus, at Camp Lee; Russell L. Haden..... 514
